

FZ-C Industrial Dispenser

Application

- ◎ Experimental Research
- ◎ Household
- ◎ Detergent Conveying
- ◎ Ink Conveying

Features

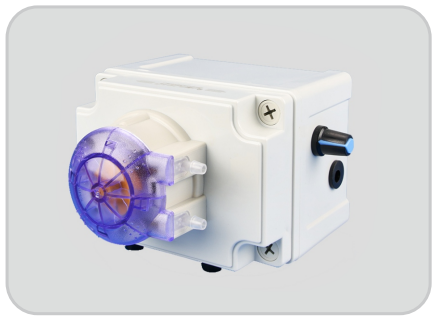

- Easy operation, stable and reliable performance
- One-key knob operation for on/off control and speed adjustment
- Rechargeable distributor, 1.5 hours charging for approximately 4.5 hours of use
- Comes with a foot pad for placement on a desktop, can also be wall-mounted with optional installation plate to save space

Functions

Control method	Potentiometer knob
Speed resolution	0. 1rpm
Display	/
Program function	/
External control interface	PWM controller (50%-100% speed)

Technical Specifications

Pump Head	104KA	503Z
Drive Dimension	127*84.7*85mm	142*134*100mm
Net Weight	365g	895g
Flow Rate	104-208ml/min	480-960ml/min
Power	≤6W	≤12W
Charging Power Supply	DC12.6V,2A (Overvoltage is not rechargeable)	
Battery capacity	12V-2500mAh (Charge 1.5 hours, can be used for about 4.5 hours)	
Work Environment	Temperature range: 0°C (no freezing) to 60°C, relative humidity <85%RH	
Output Pressure	≤0.17MPa	
Motor Type	DC reducer motor with PWM speed controller	
Shell Material	ABS plastic	
Ingress Protection	IP31	

Industrial Dispenser
